EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

It is noted that applicant gave explicit permission (in the REMARKS section of the paper filed February 19, 2004) to make any necessary amendments to the claims by Examiner's Amendment. The application has thus been amended as follows:

Title:

The title has been changed to --METHOD OF ASSEMBLING A SEALING RING IN AN OUTER ANNULAR GROOVE--.

Claims:

Claim 20:

In line 10, "the workpiece with its" has been changed to --an--.

In line 11, --of the piston-cylinder unit-- has been inserted after "portion".

The above changes were made to obviate an indefiniteness with respect to the previously unrecited language "workpiece" in line 10 of the claim. It is now clear that the axially protruding assembly portion is a part of the piston-cylinder unit (as disclosed on page 7, lines 8-13, of applicant's specification).
